- HTML5
- CSS3
- Figma
- Axure
- MySQL
- React
- Java
- JavaScript
- GitHub

Experiences

- ICT Tutor

Education

BSc (Hons) Computer Science (2023 – 2027)
- Informatics Institue of Technology affiliated with the University of Westminster

GCE Advanced Level Examination (Eng. Technology) (2021(2022))

About Me

I am a highly motivated IT undergraduate student at the Informatics Institute of Technology, with a strong foundation in different programming languages, improved through various projects. I am a learner who enjoys challenges and has a passion for continuous learning and growth. I am seeking an internship to use my knowledge of real-world problems and contribute to a successful software development team while further expanding my knowledge and skill set.

Projects

INSYNC | Y2S2 Academic Project
- InSync is an AI-powered mobile application that streamlines customer support in banking and finance, featuring a voice assistant for efficient banking needs management.
- Using React Native, Android Studio

Real Estate Website | Y2S1 Academic Project
- A user-friendly real estate website with advanced search functionality, interactive maps, responsive design, and contact forms enhances property exploration, engagement, and conversion in marketing initiatives.
- Using React.js

NRDY Anime Website | Y1S1 Academic Project
- This website, a Web Development and Design student project, aims to promote the growing popularity of Japanese anime through an e-commerce platform and interactive quiz.
- Using HTML, CSS, JavaScript

Figma Projects
- I have developed a food delivery mobile app and a To-do list mobile app.
